

EY RCP — IFRS 17 Reporting and Calculation Platform

Solution Presentation
May 2021

EY - A unique blend of expertise

EY owns a unique blend of high level expertise in the 6 domains relevant to IFRS 17

- **Audit & Finance**
The extensive practice in Audit puts EY as a major advisor for the new IFRS 17 accounting regulation
- **Actuarial**
EY conducts every year more than xxx assignments with actuarial departments of insurers and reinsurers
- **IT Systems practice**
EY has developed practices around all major actuarial systems (Prophet, RiskLegerity, Axis, SAS..) and accounting/reporting systems (SAP, Tagetik, ...)
- **Technology**
EY has the most developed practice around technology advisory among the BIG 4
- **IT integration**
The extensive knowhow for system implementation has enabled EY to develop a TOP practice to integrate actuarial and accounting systems
- **Programme implementation**
EY has the knowhow to deliver small to large system implementation programmes safely

This unique blend of TOP level expertise has lead EY to design a tailored solution to customers requests:

RCP
Reporting and Calculation Platform

RCP

Establishing compliance with IFRS 17

Designed for a safe and easy implementation

Embarking the end-to-end process of IFRS 17

Get IFRS 17

Compliant, safely and timely

Based on a large experience of IFRS 17 vendor solutions and implementations, EY RCP is providing a solution that will focus on establishing the IFRS 17 compliance in a safe and timely manner.

- ▶ RCP embraces a preconfiguration of all calculation methodologies as ready-to-use
- ▶ Preconfigured and flexible DataMart to accelerate the data mapping
- ▶ Preconfigured chart of accounts and posting rules
- ▶ Providing all IFRS 17 disclosures
- ▶ Addressing the end-to-end process through:
 - ▶ Data integration and validation
 - ▶ Calculations (GMM, VFA, PAA, LIC, LFRC), including RA calculation
 - ▶ Subledger with a parameterizable chart of account
 - ▶ Reporting with official disclosures and management reporting

RCP is also designed to be used by the audit firm to confirm calculations and disclosures.

A collaborative approach

Actuary

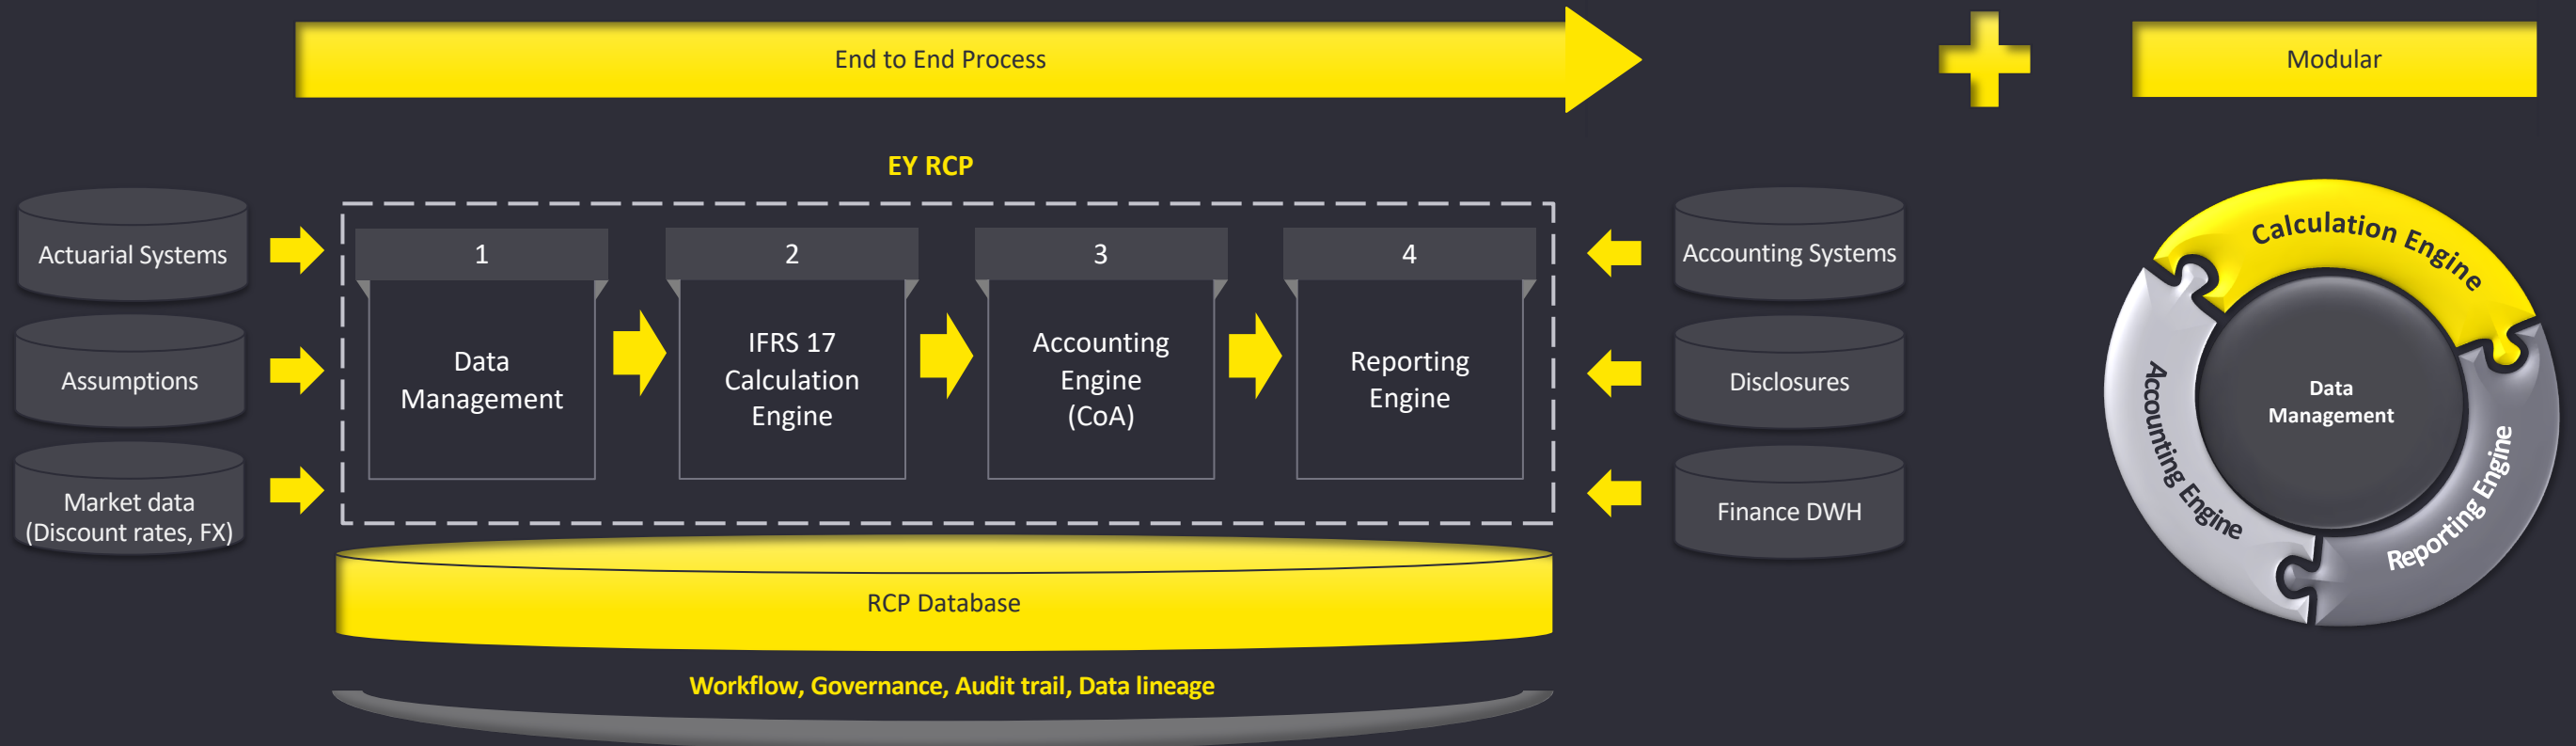

Accountant

IFRS 17 process

Disruption events, market volatility ... will require a close and efficient cooperation between actuaries and accountants to assess financial impacts in a timely manner and enable the provision of accurate and timely analysis to top management. RCP will be the bridge between actuaries and accountants.

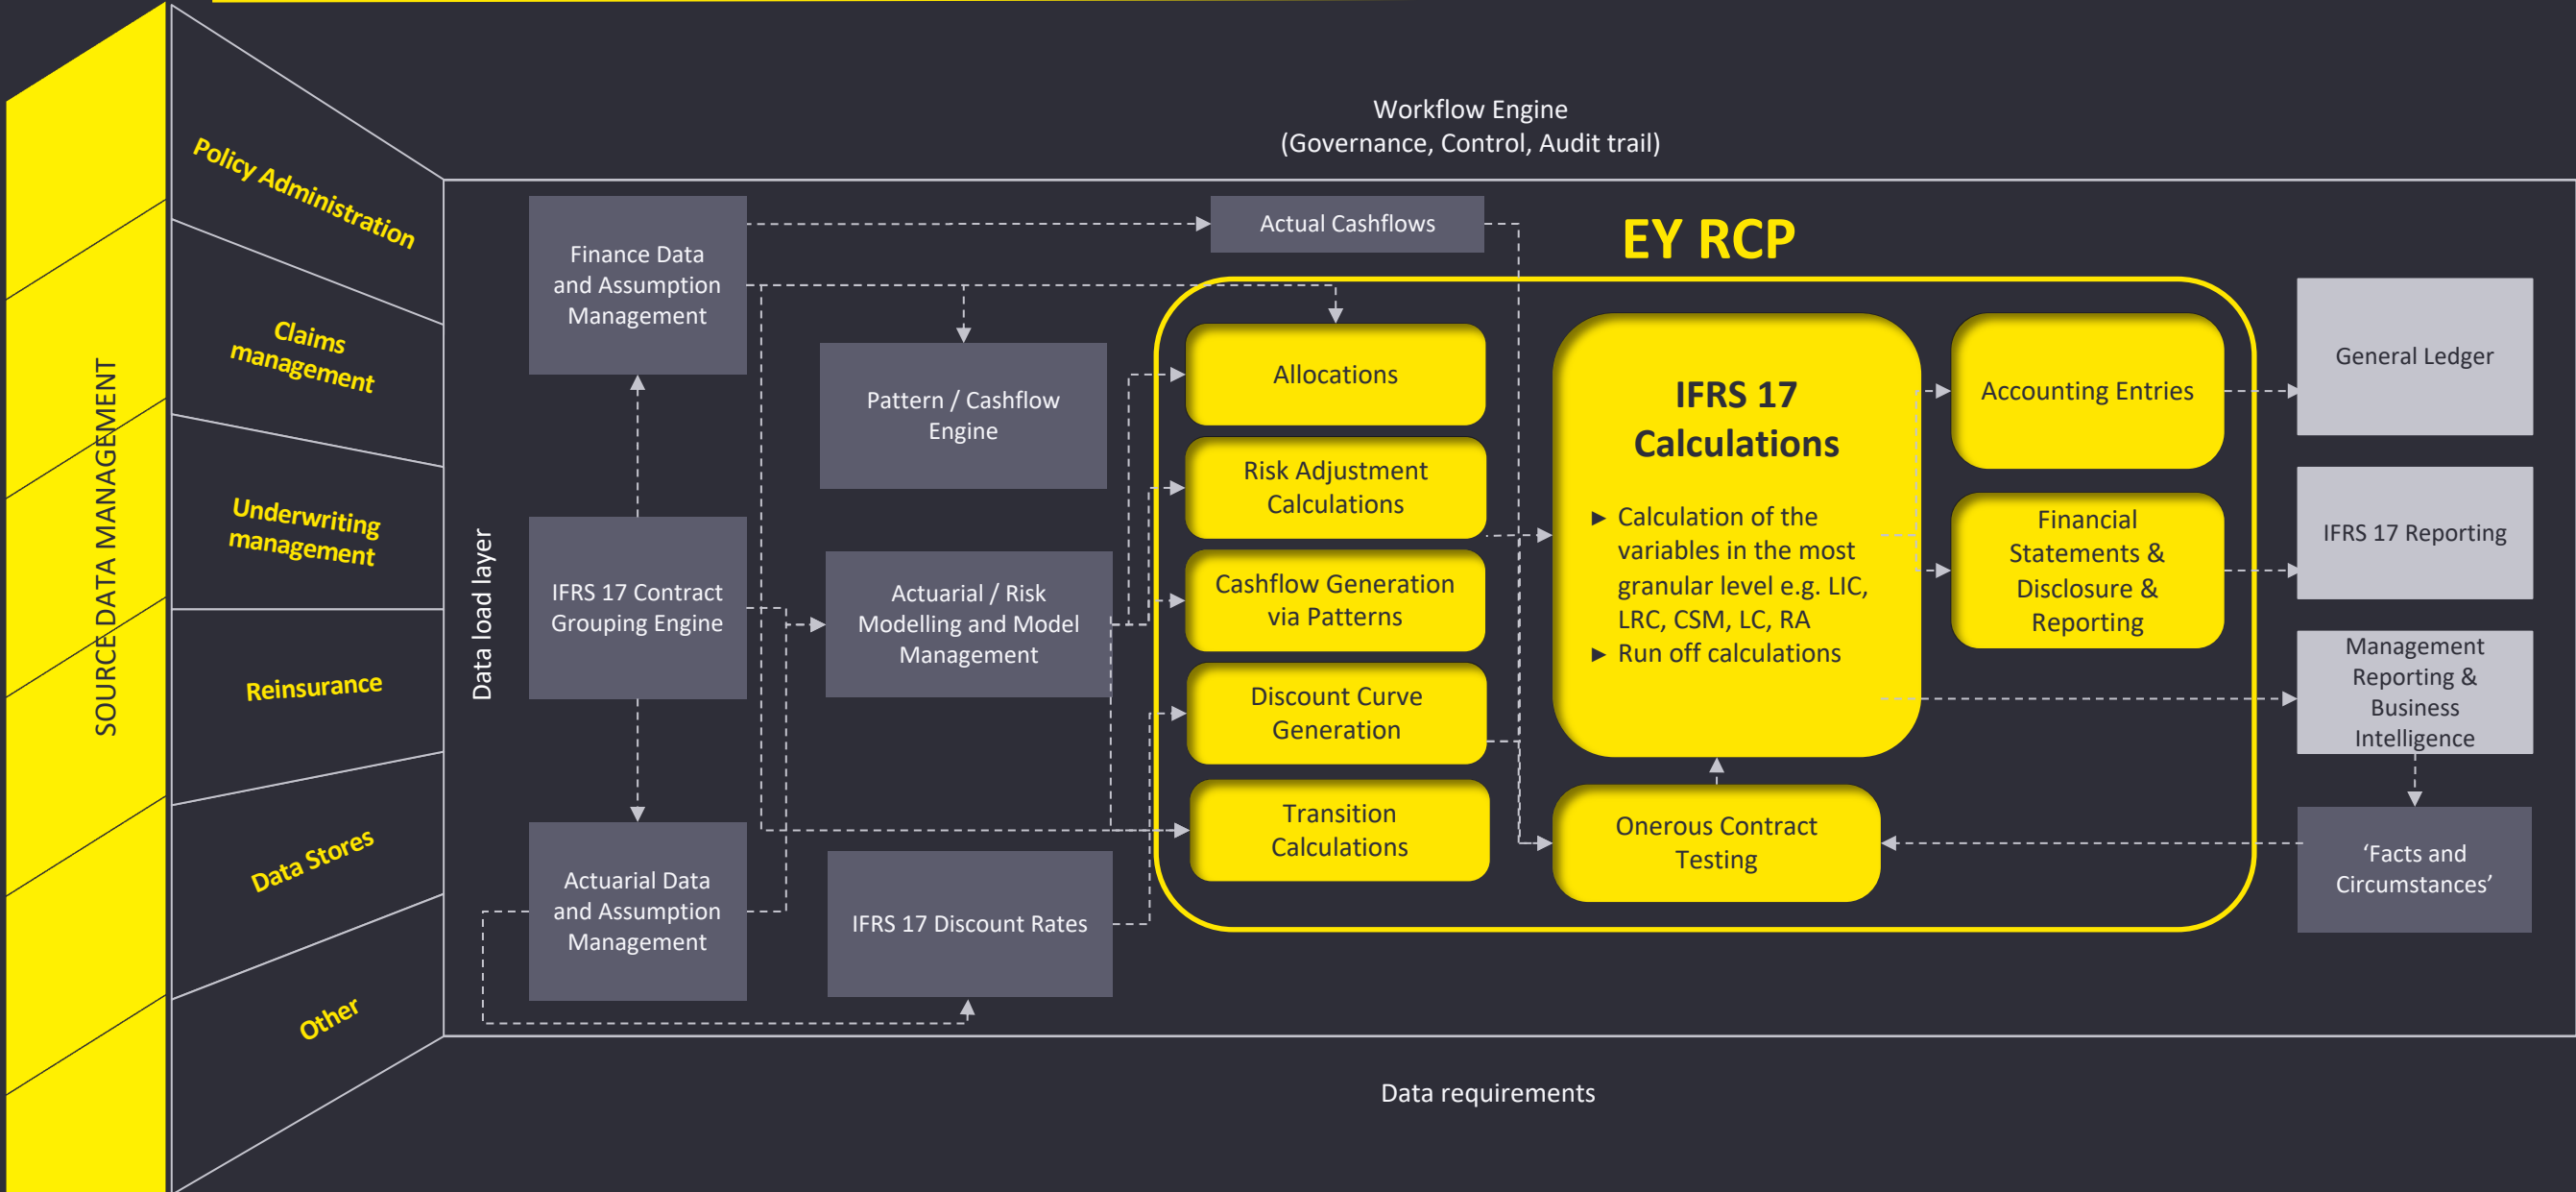

Overview of the capabilities

To generate financial statements in compliance with IFRS 17, entities need four main engines that will be integrated to entity's IT system architecture. The engines will utilize contractual data received from source systems, complete IFRS 17 calculations, generate postings and reports.

EY RCP is modular and consists of three engines which can be separately used

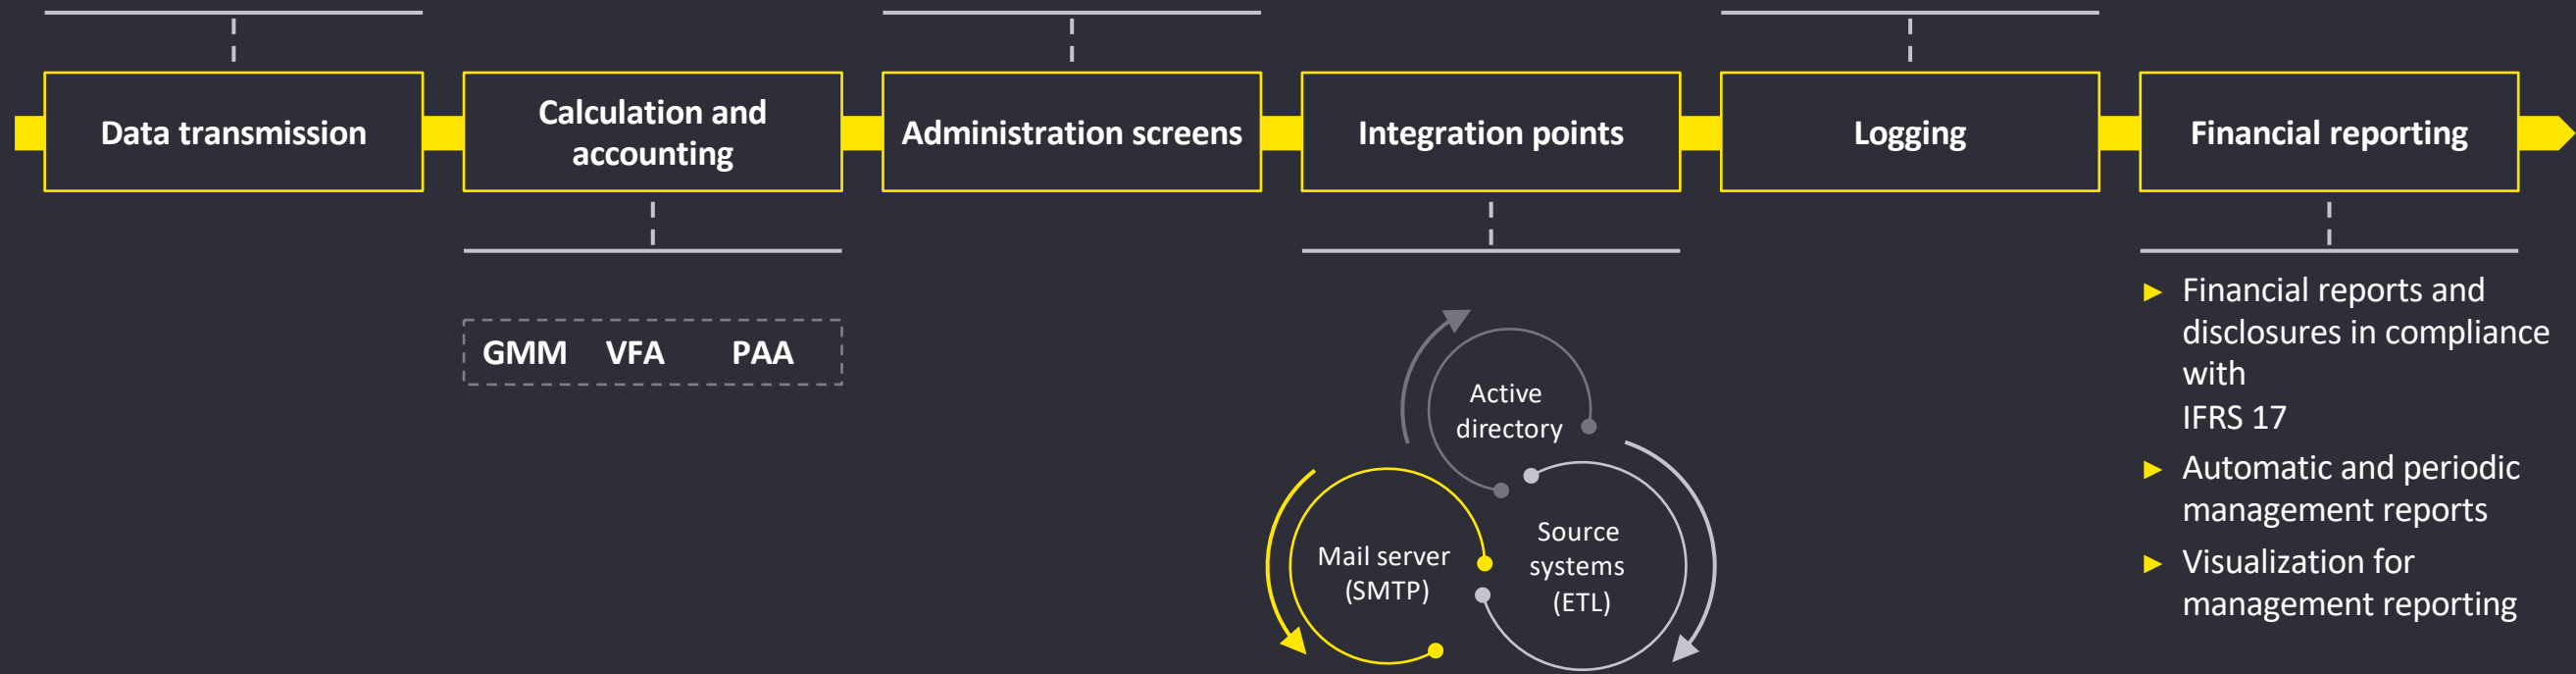

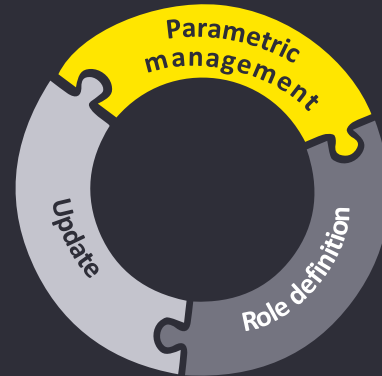

EY RCP - Scope of the solution

A fully integrated end-to-end process

EY RCP contains all functionalities to deliver a smooth end-to-end AASB 17 cycle to generate a set of financial statements

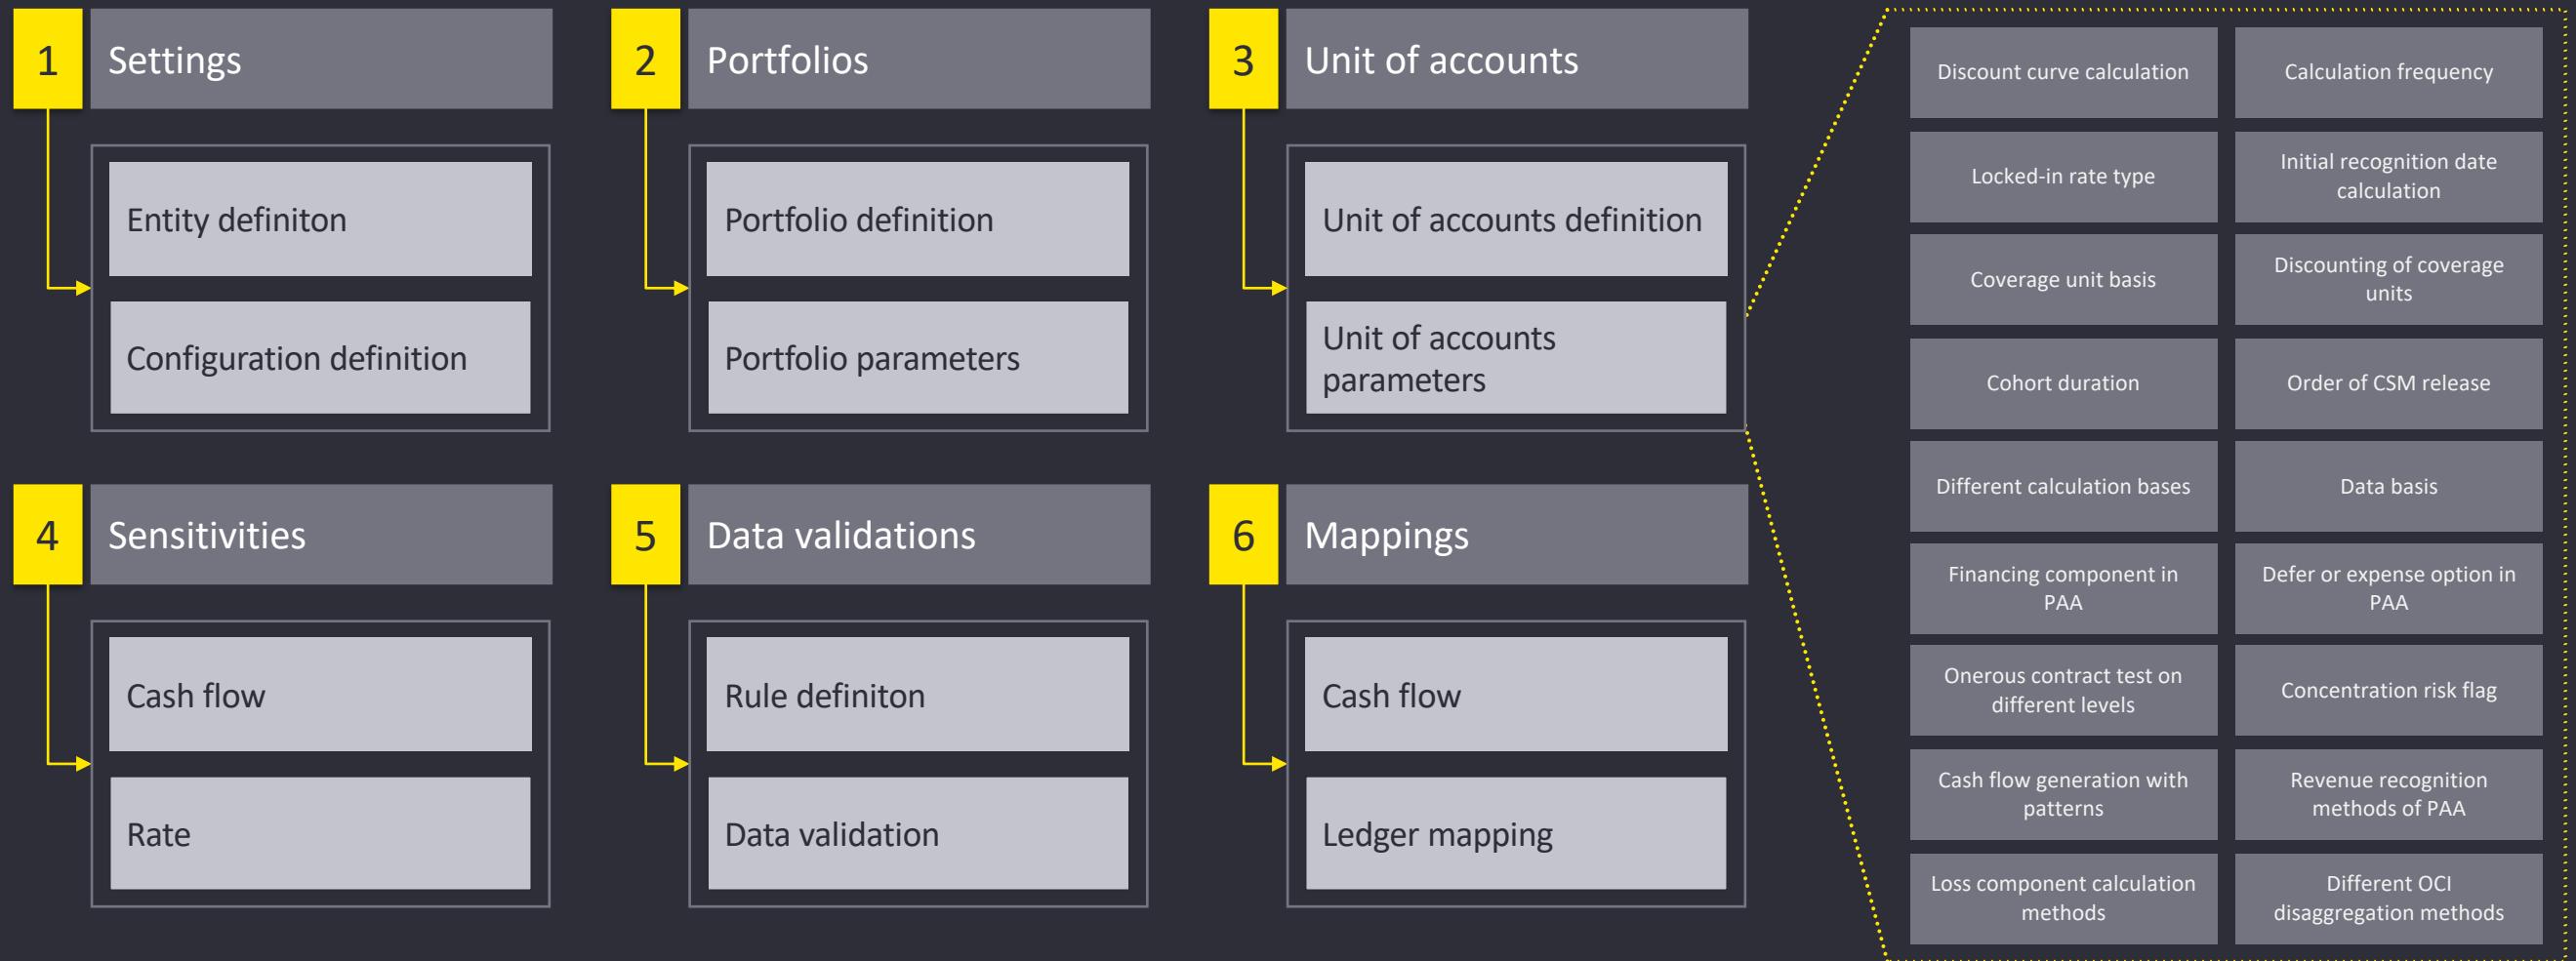

- 01 | Data model
- 02 | Data transmission infrastructure
- 03 | Data quality controls
- 04 | Monitoring data transmission stages

- ▶ Financial reports and disclosures in compliance with IFRS 17
- ▶ Automatic and periodic management reports
- ▶ Visualization for management reporting

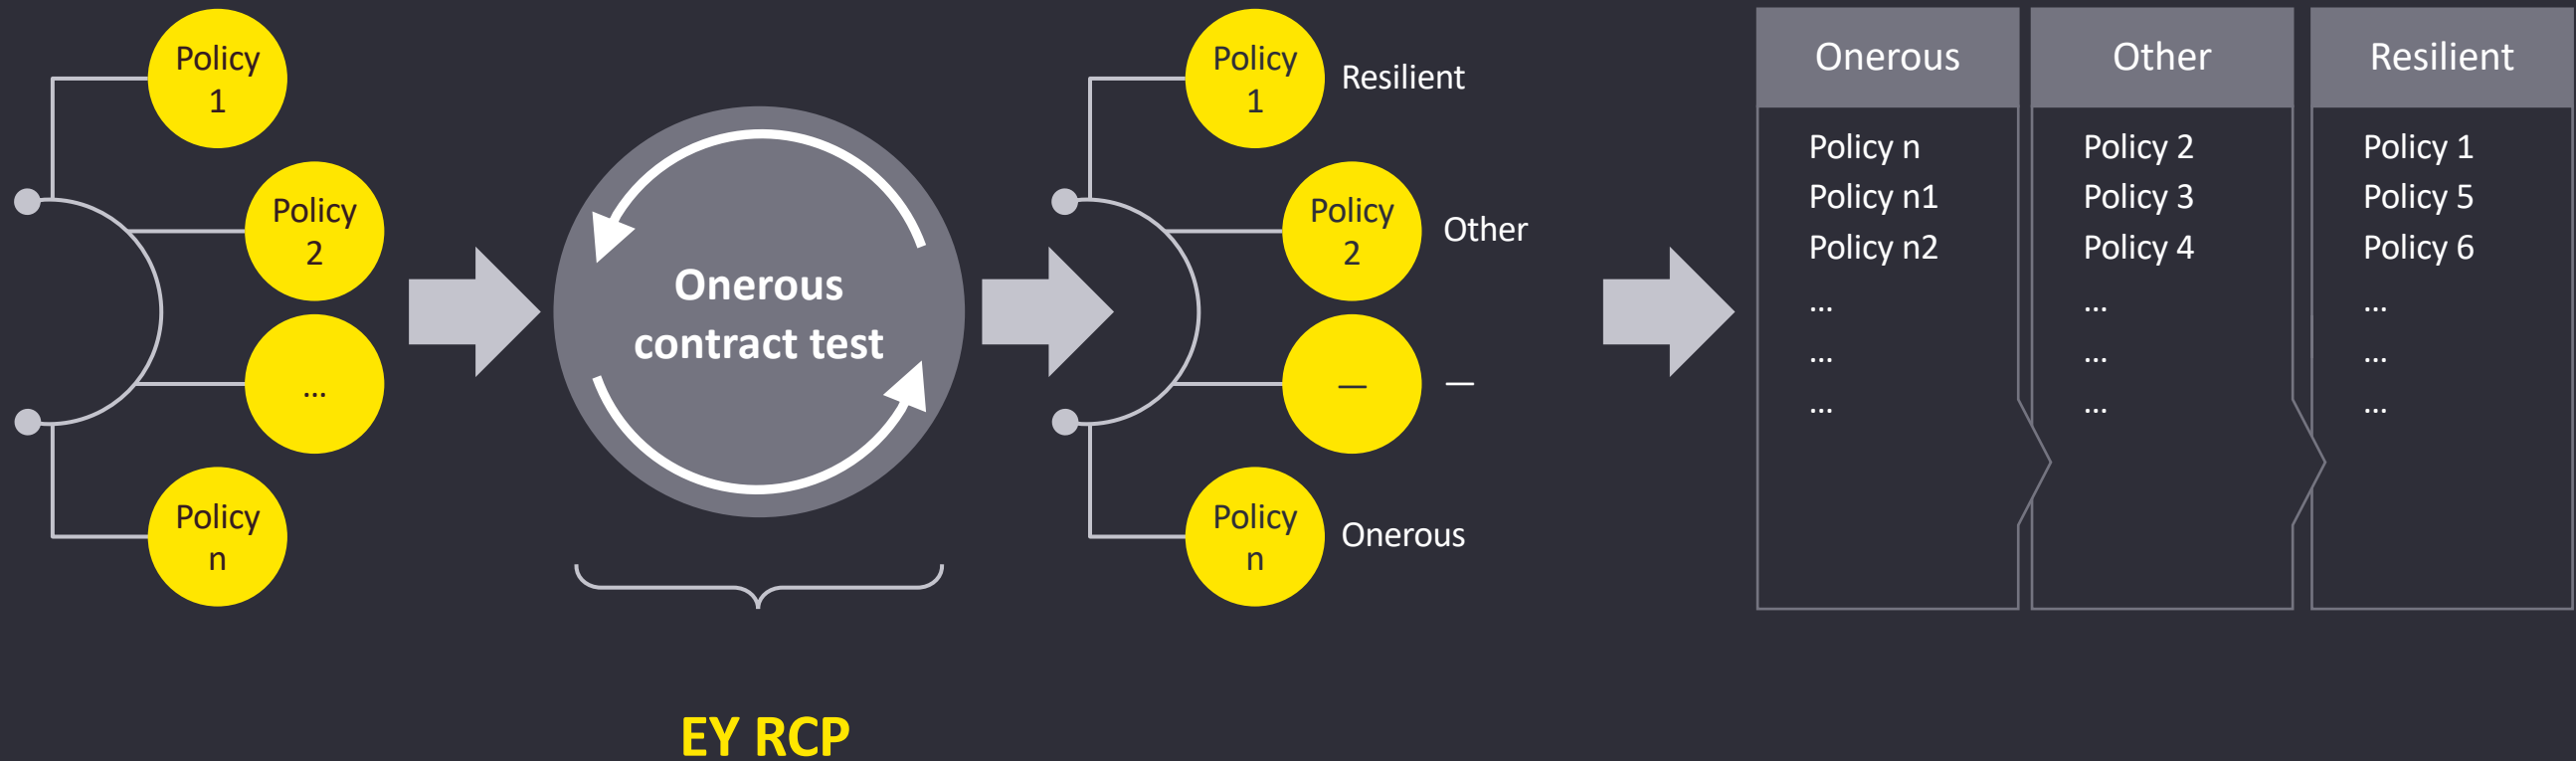

Zoom on configuration capabilities

Most of the important decisions can be made from the user interface, which decrease the total implementation effort significantly because we don't have to write codes or scripts for configurations.

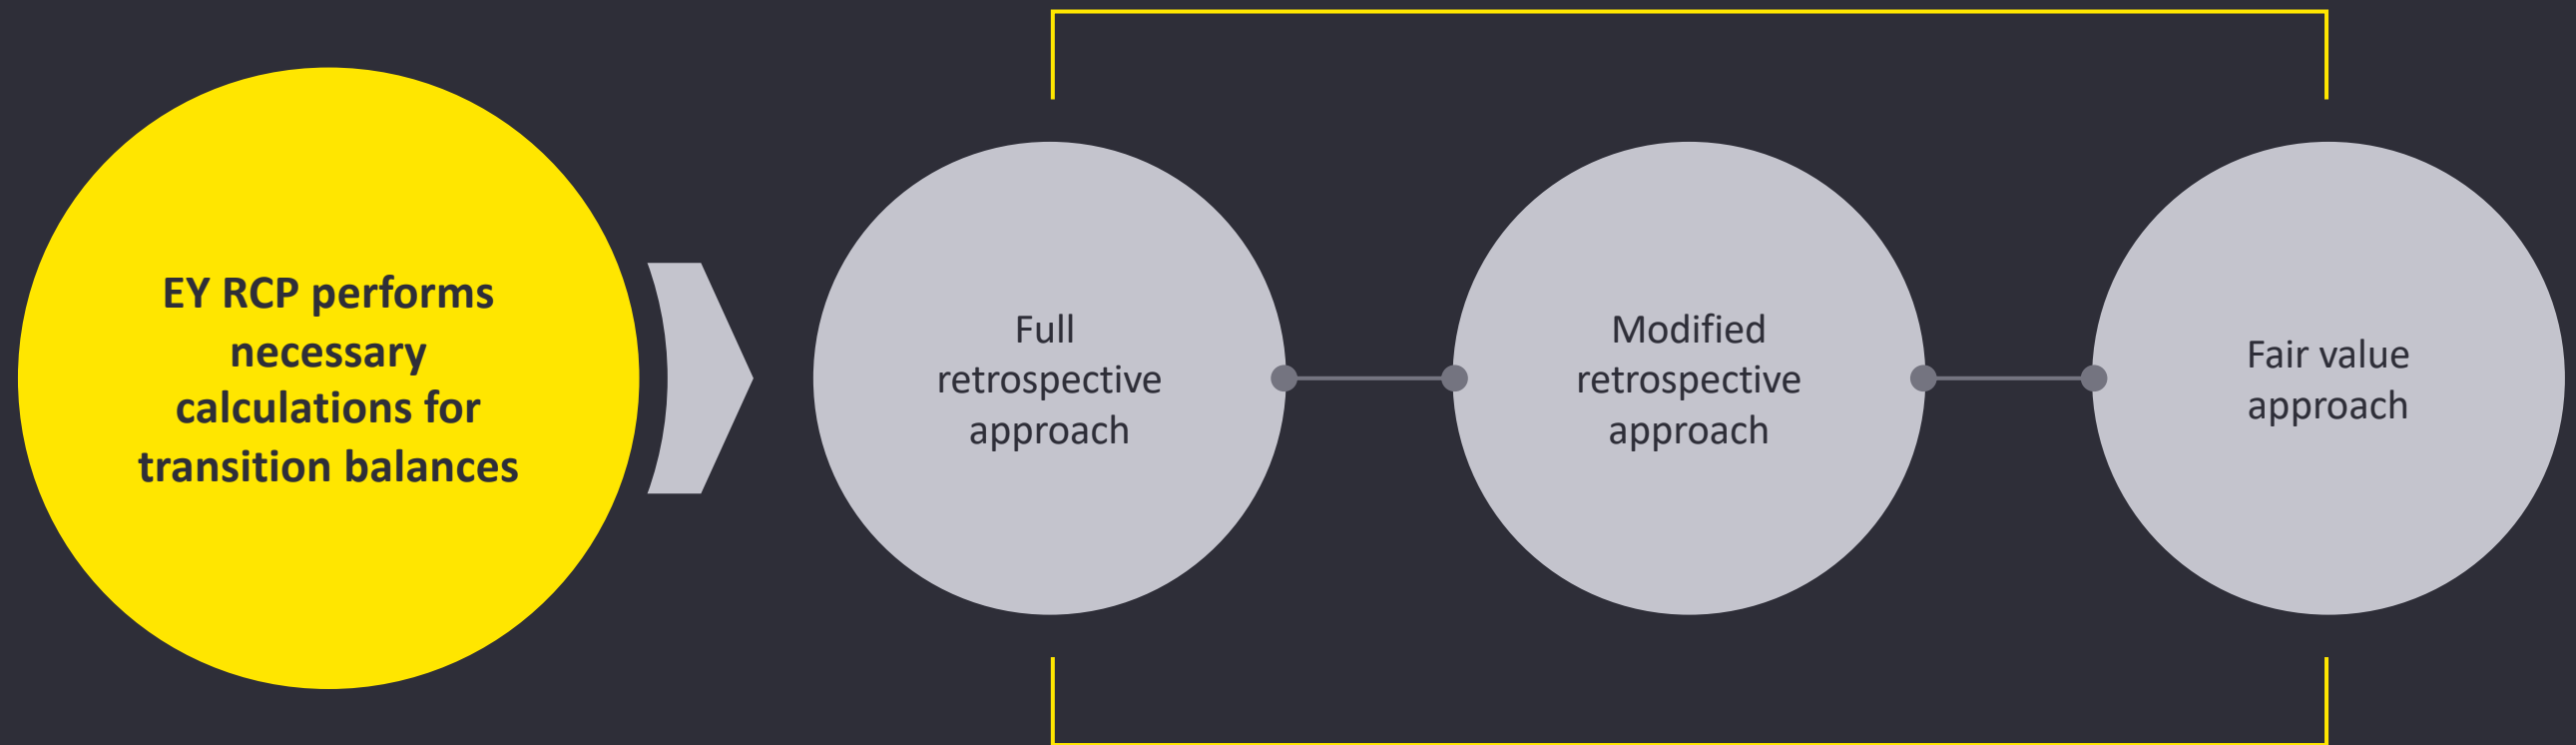

Zoom on onerosity test

EY RCP can perform onerous contract tests based on contracts or group of contracts level. Also, it can determine the profit buckets label for contracts/group of contracts. If the onerous contract test is performed on contract level while the calculation basis is group of contract, the aggregation of contract based data according to the profit bucket assignments as a result of onerous contract test.

Zoom on transition calculations

EY teams have integrated the knowledge and knowhow from dozens of assignments related to the IFRS 17 transition calculation.

Zoom on risk adjustment calculations

- ▶ EY RCP has different options for the risk adjustment calculations with Cost of Capital approach. Or, risk adjustment amount can be uploaded as an input upon request.
- ▶ RA calculations can be made at unit of account level or higher levels.
- ▶ Diversification effect is taken into account.

1

SCR ratio

- ▶ EY RCP calculates RA at UoA level according to the Cost of Capital approach for both LFRC and LIC.
- ▶ In this approach, SCR ratio and Cost of Capital rate are taken as an input.

2

RA ratio

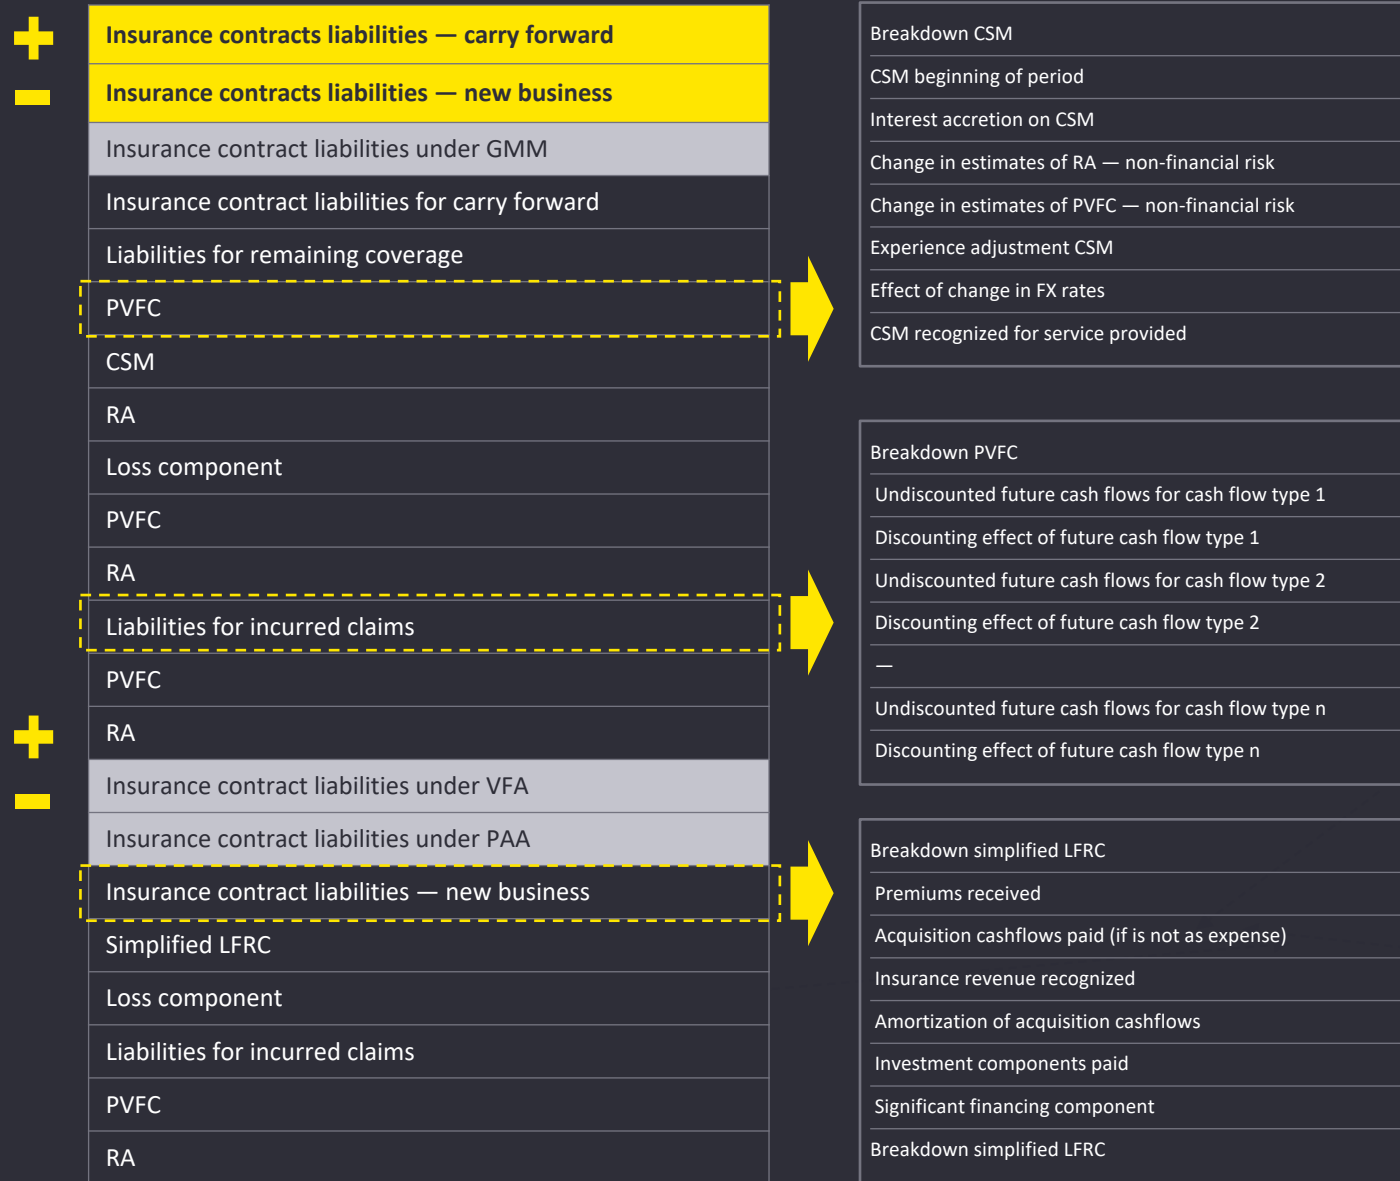

- ▶ EY RCP calculates RA at UoA level according RA ratio for both LFRC and LIC.
- ▶ In this approach, RA ratio is taken as an input.

3

Shock scenarios

- ▶ EY RCP calculates RA at UoA level according to shock scenarios for both LFRC and LIC.
- ▶ In this approach, SCR ratio is calculated by EY RCP.
- ▶ SCR rate is calculated in two different ways. One of them is to upload the SCR table ready, and the other is to determine the SCR table with cash flows.

Zoom on accounting engine

- Roll forward items for CSM, LC and LRC, including necessary allocation accounts
- Change in expectations, experience adjustments, interest accretions, etc., for each cash flow type
- Nominal amounts and discounting for each cash flow under LFRC and LIC
- Breakdowns in several different cashflow types

EY RCP-sample Journal entries

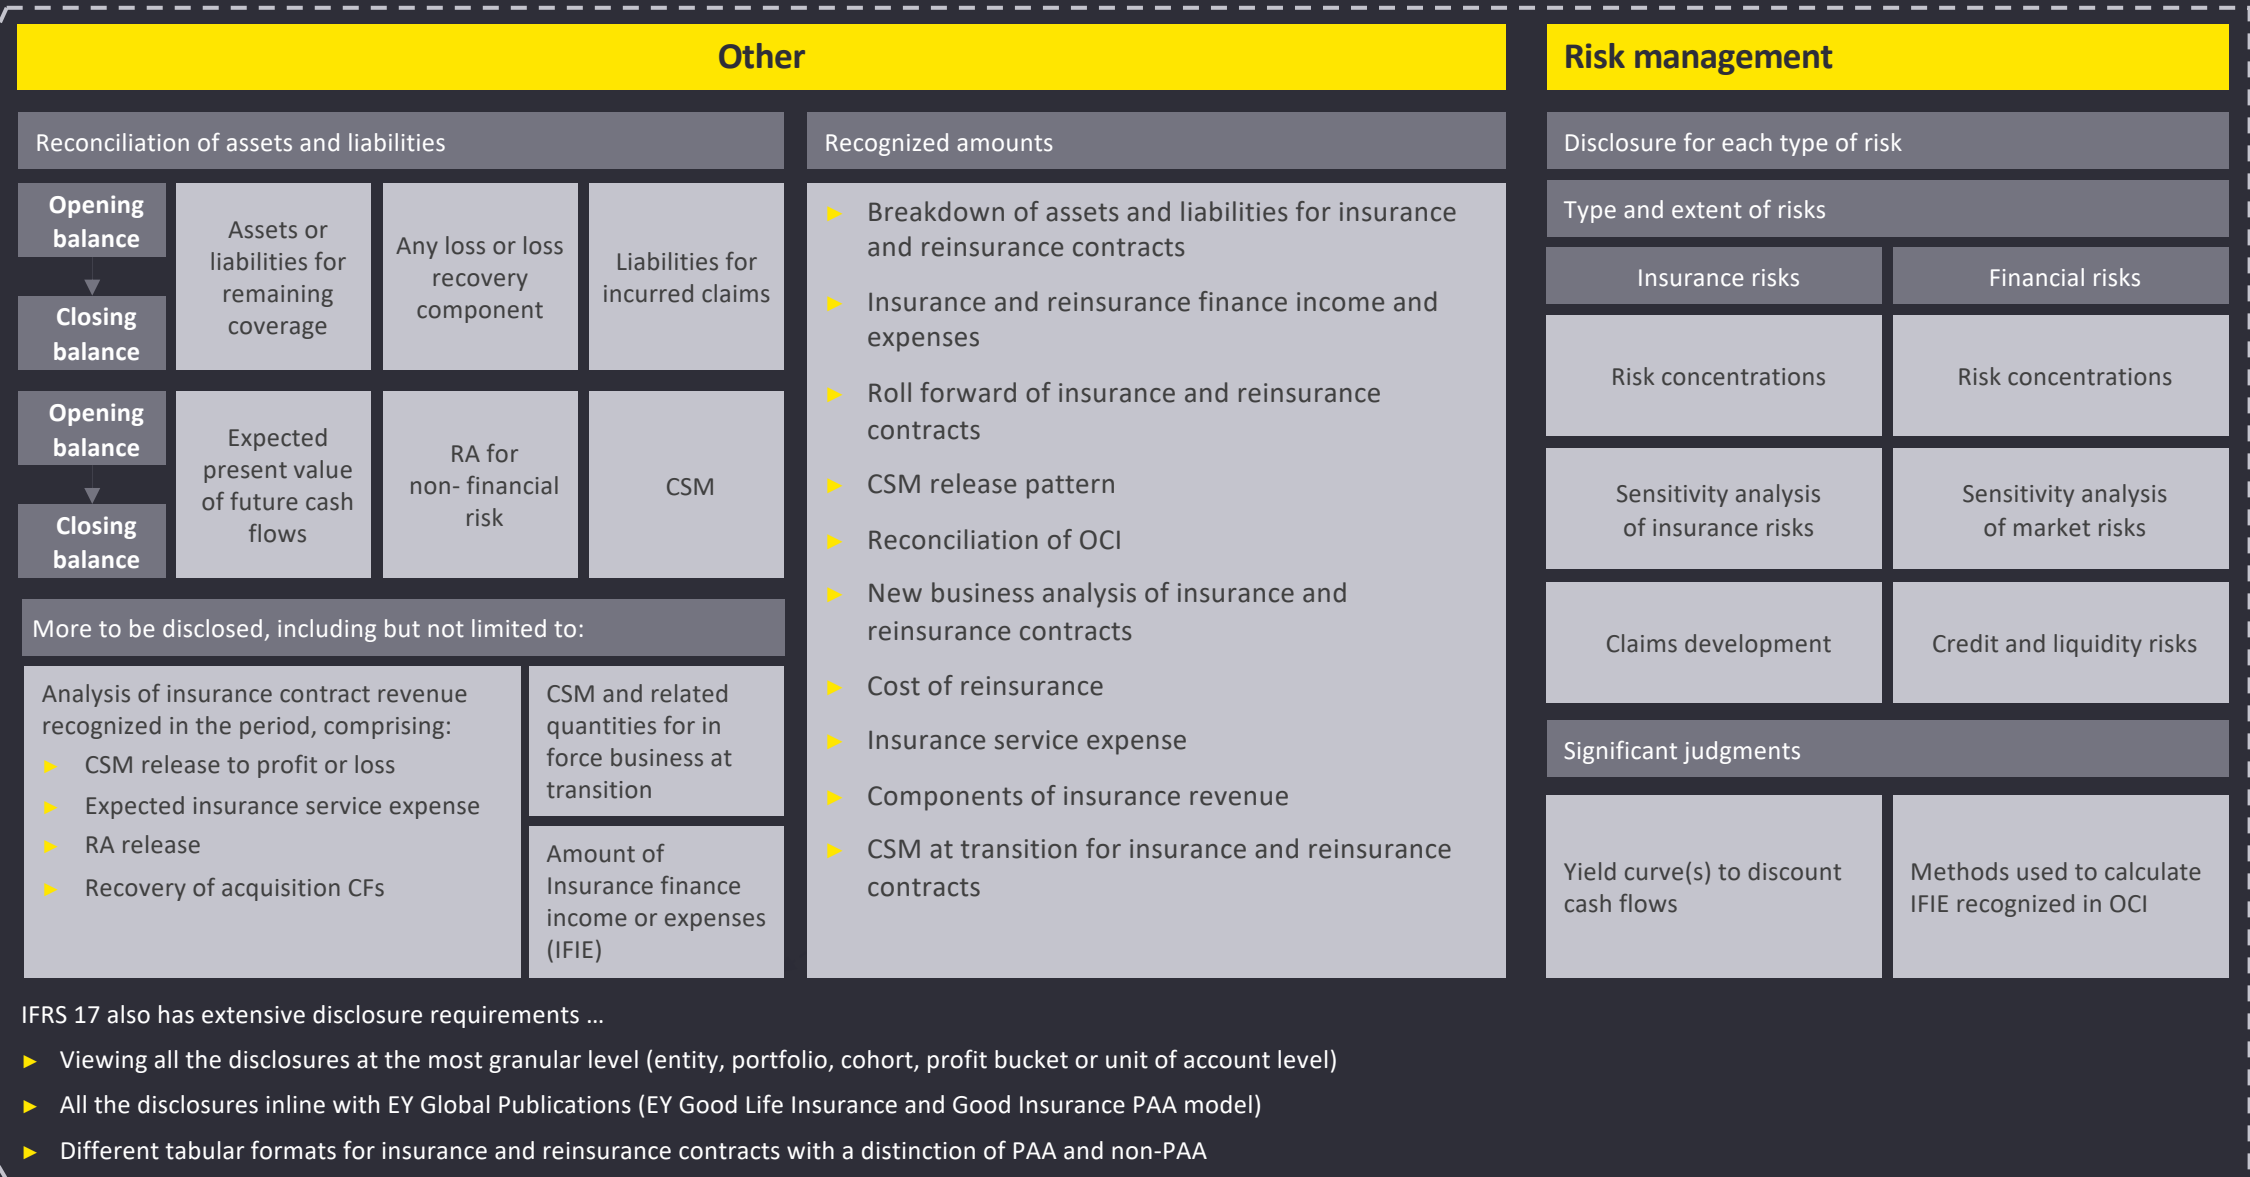

Scenario	Entity	Unit of account	Account name	Debit	Credit
Default	EY Good	Motor_2023_ON	ICL_GMM_PRIOR PERIOD_LFRC_CSM_DUE_DELTA_RA	—	100
Default	EY Good	Motor_2023_ON	ICL_GMM_PRIOR PERIOD_LFRC_RA_CHANGEINEXP	100	—
Default	EY Good	Motor_2023_ON	ICL_GMM_PRIOR PERIOD_LFRC_CSM_RELEASE	25	—
Default	EY Good	Motor_2023_ON	IR_GMM_PRIOR PERIOD_LFRC_CSM_RELEASE_PL	—	25
Default	EY Good	Motor_2023_ON	ICL_GMM_PRIOR PERIOD_LFRC_RA	10	—
Default	EY Good	Motor_2023_ON	IR_GMM_PRIOR PERIOD_LFRC_RA_RELEASE_PL	—	10

¹ Journal date, journal type, transaction date, portfolio, cohort, etc., necessary information related with journals is available.

EY RCP reporting results

Implementation Plan: How we phase it

We have developed an integrated approach to deliver the outcome for your IFRS 17 Implementation program.

IFRS 17 Implementation

1. Assessment

- *Understand your requirement and develop detailed project plans for the implementation*
- *Agree on the meetings and milestone check for the project progress*
- *Setting up the issue logs to track and promptly report to resolve such issues*

2. Solution Design Methodology

- *Develop the Requirement Documentation*
- *Gather configuration parameters customized to your preference based on the Accounting position and Calculation requirement*
- *Solution Design on architecture and target operating model, process, input data, etc.*

3. EY RCP Build & Implementation

- *RCP installation in your Environment*
- *Build Server Configuration in your Environment*
- *Input Data Preparation & Ingestion*
- *Results / Output Data*
- *RCP Parameter Definition*
- *RCP Parameter Configuration*
- *Cash flow & Ledger mapping*
- *Data Quality & Validation*

4. Test Execution

- *Execute SIT & Run UAT debrief, defect management, progress reporting*
- *Assess readiness of different environments set up by you (Test & Prod)*
- *Verification of code deployment in various environments*

5. Go-Live Support

- *Validate the Go-Live checklist/ runbook and prepare for deployment of RCP in production*
- *Verify the deployment in Test and Prod environment*
- *Initiate primary data load*
- *Provide Post Go-Live Incident Support*
- *User Training*

Project implementation timeline — agile or waterflow to match your current methodology

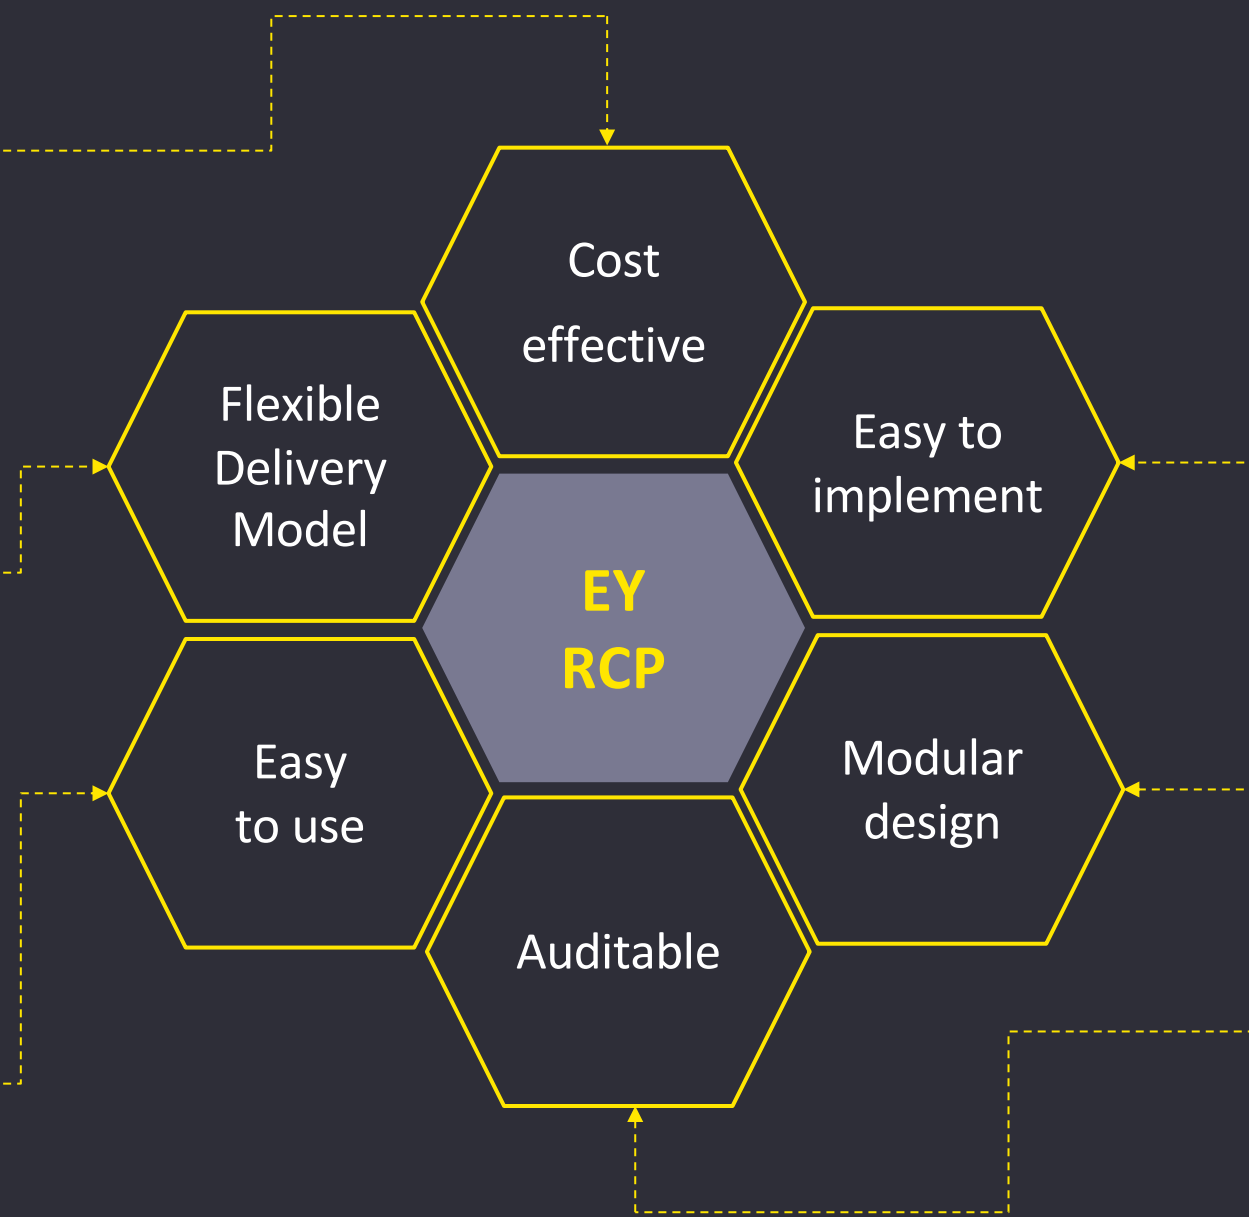

Why RCP ?

- ▶ Competitive licence fee compared to peer products makes EY RCP a value for money solution
- ▶ Modular design and standardised parameters makes it a cost effective solution to implement

- ▶ Can be used for transition, forecasting and any other simulation purposes by adding new configurations
- ▶ Can be implemented on-site or via cloud deployment using either private or EY cloud

- ▶ Simple and User friendly interface makes EY RCP quite easy to use
- ▶ Data import, Calculation and reports generation can be done in simple and minimal steps
- ▶ Standardized Package designed for Small and Medium Size Customers

- ▶ Can be configured with ease using a defined set of parameters, all of which are in line with the IFRS 17 Standard
- ▶ Simple and effective data model makes data ingestion fast

- ▶ Modular design makes implementation straightforward, run times significantly reduced, and updates quick and easy
- ▶ Allows insurers to select either the full solution, or individual modules as required.

- ▶ EY RCP has an auditable structure with audit trails, logs and historical data.

EY - A leading technology practice

EY has a market leading Insurance Technology practice, delivering client engagements across all of our regions

Winning independent Awards

 #1 Gartner IT services to insurance (2017)	 Named leader in Innovation Consulting (2019)
 Leader for Data and Analytics service provider worldwide (2021)	 #1 InsurTech initiative of the year (InsureWave) (2019)
 ALM Leader Digital & Fintech Consulting (2017)	 Guidewire Innovation Award (2019)

Developing a wide range of technology solutions

 IFRS 17	 Risk Analytics
 IFRS 9	 Risk & Finance
 UW Automation and Analytics	 Compliance
 Claims Analytics	 Digital Innovation

Delivering for market leading clients

With dedicated insurance technology resources

Americas 1500+	Europe 1400+
8000+ Global Development center resources	APAC 450+

Currently ready for use in all Regions ...

Standard compliance
due date

About EY

EY is a global leader in assurance, tax, strategy, transaction and consulting services. The insights and quality services we deliver help build trust and confidence in the capital markets and in economies the world over. We develop outstanding leaders who team to deliver on our promises to all of our stakeholders. In so doing, we play a critical role in building a better working world for our people, for our clients and for our communities.

EY refers to the global organization, and may refer to one or more, of the member firms of Ernst & Young Global Limited, each of which is a separate legal entity. Ernst & Young Global Limited, a UK company limited by guarantee, does not provide services to clients. Information about how EY collects and uses personal data and a description of the rights individuals have under data protection legislation are available via ey.com/privacy. For more information about our organization, please visit ey.com.

Ernst & Young LLP is a client-serving member firm of Ernst & Young Global Limited operating in the US.

EY is a leader in serving the global financial services marketplace

Nearly 51,000 EY financial services professionals around the world provide integrated assurance, tax, transaction and advisory services to our asset management, banking, capital markets and insurance clients. In the Americas, EY is the only public accounting organization with a separate business unit dedicated to the financial services marketplace. Created in 2000, the Americas Financial Services Organization today includes more than 11,000 professionals at member firms in over 50 locations throughout the US, the Caribbean and Latin America.

EY professionals in our financial services practices worldwide align with key global industry groups, including EY's Global Wealth & Asset Management Center, Global Banking & Capital Markets Center, Global Insurance Center and Global Private Equity Center, which act as hubs for sharing industry-focused knowledge on current and emerging trends and regulations in order to help our clients address key issues. Our practitioners span many disciplines and provide a well-rounded understanding of business issues and challenges, as well as integrated services to our clients.

With a global presence and industry-focused advice, EY's financial services professionals provide high-quality assurance, tax, transaction and advisory services, including operations, process improvement, risk and technology, to financial services companies worldwide.
